

BluePoint

The Industry-Leading Commercial Asset Management Software

BluePoint's cloud-based platform provides a one-stop solution for renewable energy owners and operators. Its intuitive design and industry-tailored features are designed to help you scale your business.

KEY BUSINESS DRIVERS

MAXIMIZE SCALABILITY AND EFFICIENCY

Work smarter and faster with automated workflows for real-time decision-making. Create work orders and schedules, set up automatic invoicing, and never miss compliance or contractual obligations.

STAY CONNECTED TO YOUR DATA

You can spend more time making real-time decisions and less time verifying data accuracy. Our 50+ connections automatically update data from your monitoring and other software systems.

360-DEGREE VIEW OF YOUR ASSETS

Detect and correct underperforming assets quickly with BluePoint's central asset registry. Maintain full insight with performance monitoring, financials, and powerful reporting tools.

SEAMLESS COLLABORATION WITH YOUR TEAM

Our multi-language platform will keep teams of all sizes connected. Stay organized and manage your projects smarter. Pipeline management and collaboration has never been easier.

BLUEPOINT FEATURES

BluePoint is used by investors, IPPs, O&M companies, developers, and EPCs, providing a suite of tools for all stages of the asset lifecycle.

PLANT AND PORTFOLIO MANAGEMENT

View all plant- or portfolio-level data from one central place so that you always have the right information at your fingertips.

POWERFUL REPORTING

Combine your BluePoint data and our drag-and-drop report editor to quickly streamline reports.

CONTRACTS AND COMPLIANCE

Manage your contracts and set schedules for compliance obligations to receive reminders in your inbox.

PERFORMANCE MONITORING

View performance data for a plant or portfolio using automated connections to your data sources.

TASKS AND WORK ORDERS

Create tasks and shorten your downtime – automation will save you time and reduce risk.

AUTOMATED INVOICING

With all the data at your fingertips, PPA energy invoicing has never been easier. Faster invoicing with more accuracy.

PROJECT MANAGEMENT

Collaborate with your team for on-time project completion and optimized pipeline management.

FINANCIAL MANAGEMENT

We are your go-to financial solution with all your financial statements and budgets on one platform.
